VTP/ELB/Year 5/Term 4 Homework

21st February 2018

Dear Parents and Carers

Human Geography

Following on from some amazing Roman homework, our Term 4 task is based on our new topic, Human Geography (the impact that humans have on the planet).

You have until the end of Term 4 to complete this project, which is based on settlements; where they were built and what they look like.

You will need to hand in your finished project by Friday 23rd March.

Design or make your own settlement!

Location	Where is your settlement – near a river? On a major road? On a hill?
Resources	What natural resources are available to your settlement? Mining? Fishing? Farmland?
Buildings	Which buildings are in your settlement? A hospital? Bank? Church/temple? A market? What do your buildings look like?
Energy	How do the people in your settlement produce light and power? Wind turbines? Solar Panels? Gas from the sea?

Try to come up with ideas that other people will not think of.

You can get ideas from real settlements (villages and cities etc.) but your design/ model needs to be your own imaginary one.

Include notes or a guide so that we can read all of your great ideas.

Yours sincerely

Miss Daniells

Mr Moores

Mr Kimber
