

# Term 5 in Year 1

Another term whooshes by... We've had a great time this term with a variety of learning: finding out about the Victorian Period, learning about plants, Total Pap... read on to find out all about it.

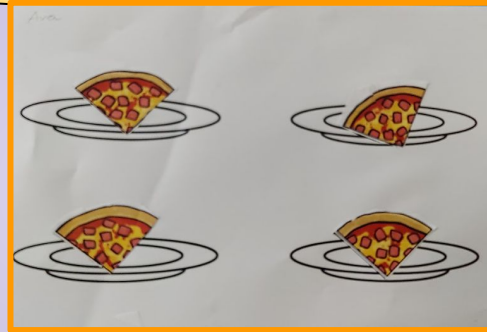

Erin and Kira's model of Crystal Palace, where Queen Victoria and Prince Albert held their Grand Exhibition in 1851.

# Maths

In maths we have zoomed forward with our learning about numbers, particularly grouping numbers to count more efficiently. We've learnt about counting in 2s, 5s and 10s and we've discovered how to share amounts equally into groups. We've investigated halves and quarters of objects, shapes and numbers and we've also looked into turns and position in geometry.

We've also continued to keep our number bond knowledge building - every day we practise our number bonds. This is how we present out number bond work.

16.05.24  
TWAT: recognise a quarter of a quantity.

Complete the sentences.

a) Here are 12 apples.

A quarter of 12 is

b)

A quarter of 16 is

Here are 8 strawberries.

Can you find a quarter of 8 strawberries?

We have made amazing progress in our writing this term. We've made paper and written instructions, we've written a sorry letter from the Wolf in 'The Three Little Pigs' (his bottom was sore but he was sorry) and we've enjoyed a super rescue story from Percy the Park Keeper.

English

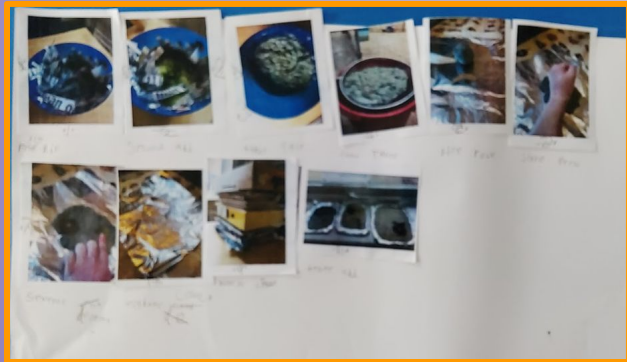

IBAT write a recount

23.5.24

First we went all the way to the library. \*  
 Then we played in the park. After that we worked all the way back to school. Finally we got arranged for home and it was so fun but we was so so tired.

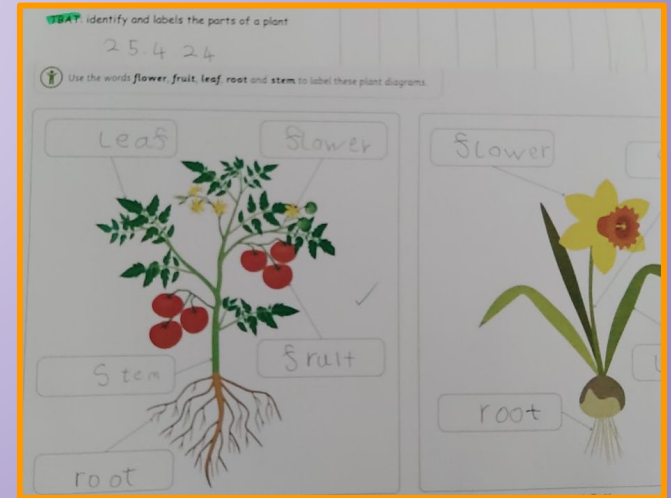

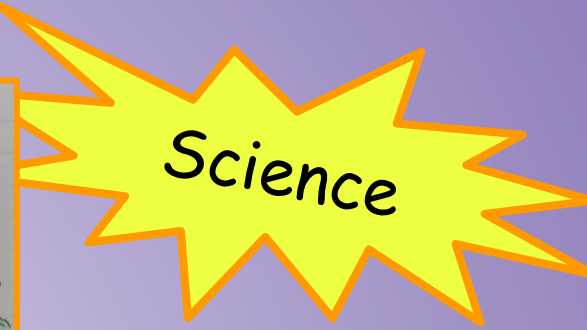

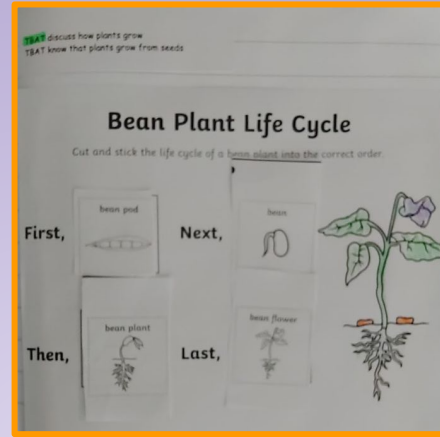

\* we chose a book and we said and the noo Liebreuecard

We also recounted our walk to the library. We know how important it is to get our sentences right. We use capital letters, spaces, a full stop, question mark or an exclamation mark and we try to write longer sentences using 'and,' 'but' and because.

In Science we have been learning about plants. We know the different parts of a plant and we're learning what plants need to grow. We've looked at the different types of leaves and the difference between seeds and bulbs. We've had fun planting our own sunflower seeds. Fox Class had a competition to see who's bean grew the quickest and Owl Class put bean seeds in different places to see what conditions a seed needs to grow.

# Freeflow

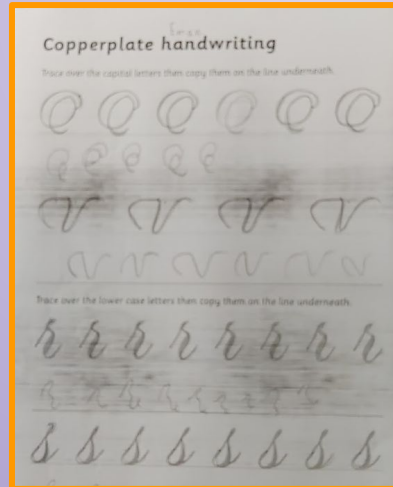

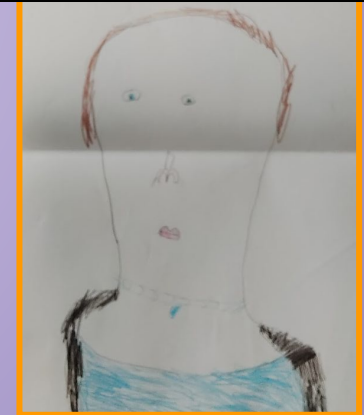

In our Freeflow learning we have been looking into the past and comparing life with today. We've focused on life in the Victorian Period; we've looked at clothes, technology and everyday life. We've thought about what life is like today and discussed what incredible changes have happened since the Victorian times.

Art in the style of Victorian artist William Morris

Tommy K's portrait of Queen Victoria

# Art

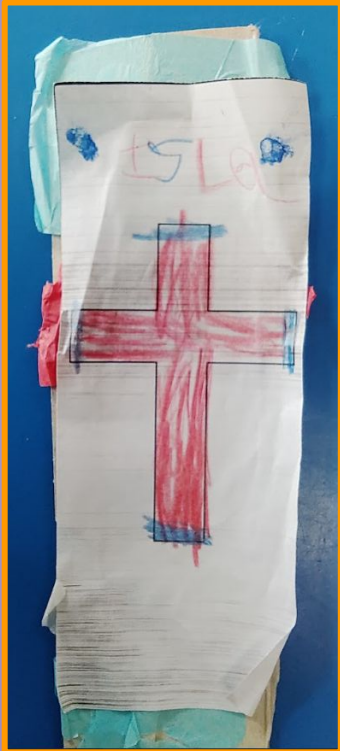

This term we have based our learning around the work of Total Pap who make their works of art using papier mache. We used balloons moulds and covered them in paper and a sticky glue mix. We cut the papier mache in half to create half 'face-shapes.' We then learnt how to make skin tone colours, painted our faces and added our features.

Smiley Blue Cat Head  
by Emily Firmin

# R.E

In RE this term we have learnt about the term 'sacred.' We have looked at the difference between the places of worship of different religions. We've looked at Christian churches, Jewish synagogues and Islamic mosques and we've thought about why these places are important to people with these faiths.
